

ENVIRONMENTAL POLICY STATEMENT

Electrical Waste Recycling Group are committed to continual improvement to ensure our business is carried out in a responsible and considerate manner; protecting the environment from harm or degradation and improving our businesses and environmental performance.

Our mission statement is:

“To promote a flexible approach to our customers, to cement a trusted and valued relationship based on genuine care”

Electrical Waste Recycling Group are committed to:

- The protection of the environment, including prevention of pollution, climate change mitigation and adaptation and other specific requirements relevant to the context of the organisation.
- The protection of biodiversity and ecosystems within the scope of our operations, we shall contribute to and promote the wellbeing of communities by behaving in a socially responsible manner, by maximising sustainable benefits and opportunities available to our host communities.
- Reduction in fuel consumption and vehicle emissions by promoting safer, cleaner and more efficient driver behaviour through systematic monitoring and review of vehicle telematics.
- Setting a framework of environmental objectives, targets and programs to support waste minimisation within our operations, reduction in use of energy and natural resources relevant to tonnage throughput.
- Continual evaluation of our suppliers' environmental policies and performance whilst seeking to influence suppliers of materials and services to adopt policies which are consistent to our own.
- Continual evaluation of operating techniques that will provide benefit to the environment.
- Educating and motivating our workforce to observe and embrace this policy in order to minimise the environmental and impact of daily work.
- Adherence to BATRRT guidelines to ensure that we employ the best available techniques to maximise recycling and recovery and minimise disposal for all waste streams treated both on and off site.

Electrical Waste Recycling Group will ensure that all activities will meet and satisfy relevant regulatory, legislative and compliance obligations both at national and local level, also with any other requirements from other associated organisations. Where no regulations exist, we will endeavour to set our own appropriate high standard.

We will set out clear governance that reviews and measures performance against our set objectives. In this process we will make assessment of compliance with legal requirements. We will set and review objectives and targets at management review meetings and report environmental progress and assist with external verifiers.

This environmental policy statement will be available to customers, suppliers, contractors and members of the public if required via the compliance team or through our website.

A framework for continual improvement of our environmental management system will be achieved by conducting regular audits to assure progress and senior management commitment. We shall take into account the latest technical development, scientific understanding, customer and client needs and community expectations. We will ensure that all environmental arrangements and this policy are reviewed to reflect the principles of our company and ensure improvements to our environmental management systems are maintained.
